

Cetaphil Sun Light Gel SPF 50+ — 50 ml

Very High UVA/UVB Protection • Lightweight Gel • Water Resistant • Sensitive Skin

Cetaphil positions this sunscreen for **sensitive skin**, with SPF 50+ UVA/UVB protection, high water resistance and a lightweight, non-comedogenic formulation. The published ingredient list includes multiple modern UV filters plus vitamin E.

SKINWISE QUICK TAGS

Sensitive Skin • Oily Skin • Combination Skin • SPF 50+ • Non-Comedogenic • Water Resistant

WHY SKINWISE SELECTED IT

A practical **daily SPF 50+ option for sensitive and oily/combination skin** when the customer wants a sunscreen that feels relatively light and is resistant to water and sweat.

It is also **fragrance-free and paraben-free** according to Cetaphil's published product information.

BEST FOR

- ✓ Sensitive skin
- ✓ Oily skin
- ✓ Combination skin
- ✓ Normal-to-oily skin
- ✓ Acne-prone skin
- ✓ People who dislike heavy creams
- ✓ Outdoor activities / sweating
- ✓ Daily facial sunscreen

MAY NOT BE THE FIRST CHOICE FOR

- Very dry or dehydrated skin
 - People who dislike alcohol-containing sunscreen formulas
 - People looking for a strongly moisturizing sunscreen
 - People specifically wanting visible-light protection from a **tinted** sunscreen
-

SUN PROTECTION

SPF: 50+

Protection: UVA + UVB

Water resistance: Yes — Cetaphil describes it as extra/highly water resistant depending on market labeling.

The formulation contains several UV filters, including:

- **Octinoxate (Ethylhexyl Methoxycinnamate)** — primarily UVB
 - **Uvinul A Plus** — UVA
 - **Tinosorb S** — broad UVA/UVB
 - **Ethylhexyl Triazone** — strong UVB
 - **Titanium Dioxide**
 - **Tinosorb M** — broad-spectrum protection
-

KEY INGREDIENTS

Vitamin E / Tocopherol

An antioxidant that helps protect against oxidative stress and also provides skin-conditioning benefits.

C12-15 Alkyl Benzoate

A lightweight emollient that helps improve spreadability and gives the sunscreen a smoother, less greasy feel.

Dimethicone

Helps provide a smooth skin feel and contributes to the protective film.

Silica

Helps with the sensory profile and can contribute to reduced shine.

 TEXTURE & FINISH

- Texture:** Light gel
 - Feel:** Lightweight / non-sticky
 - Finish:** Relatively non-greasy
 - White cast:** Generally designed to minimise visible residue
 - Fragrance:** Free
 - Parabens:** Free
 - Comedogenic:** Non-comedogenic according to Cetaphil's product information.

 Skinwise Primary Category

SUNSCREEN → OILY / COMBINATION / SENSITIVE SKIN

PROS

- + SPF 50+
- + UVA + UVB protection
- + Lightweight gel texture
- + Water/sweat resistant
- + Non-comedogenic
- + Fragrance-free
- + Paraben-free
- + Suitable for sensitive skin
- + Good option for outdoor use
- + Contains vitamin E

THINGS TO KNOW

- Contains alcohol high in the ingredient list.

This is one of the important points I would mention internally when categorising it for Skinwise. Alcohol helps create the light, fast-drying sunscreen texture, but **very dry, irritated or barrier-compromised skin may find it less comfortable.**

- Not primarily a moisturizing sunscreen.

- **Not tinted**, so it doesn't provide the same visible-light pigmentation benefit associated with suitable iron-oxide-containing tinted sunscreens.

HOW TO USE

Apply **generously and evenly** to the face, neck and other exposed areas before sun exposure.

Reapply regularly during prolonged outdoor exposure, particularly after **swimming, sweating or towel drying**. Cetaphil specifically recommends repeated application to maintain protection.

DERMATOLOGIST'S PICK

Best suited for:

Oily → Combination → Normal-to-Oily → Sensitive skin

Especially when:

The patient wants a lightweight SPF 50+ that is non-comedogenic and suitable for sweating/outdoor exposure.

Not my first choice when:

The patient has very dry skin or wants a rich, barrier-repairing sunscreen.

SKINWISE VERDICT

4.4 / 5

Best feature:

☀️ Lightweight SPF 50+ protection with water resistance and good suitability for oily/combination skin

One-line recommendation

A lightweight SPF 50+ sunscreen suitable for sensitive, oily and combination skin, offering broad UVA/UVB protection in a non-comedogenic, water-resistant gel formula.
