

HOW I WOULD POSITION ALL Sunscreen

Product	Main Customer	Texture	Key USP	Skinwise Score
Solasafe Silicone Gel	Oily/Combination	Silicone gel	Smooth/matte feel	★ 4.3/5
Solasafe Tinted Ivory	Normal/Combination	Tinted	Sunscreen + light coverage	★ 4.2/5
Solasafe ACE Liquid	Oily/Acne-prone	Fluid	Niacinamide + Zinc PCA + hydration	★ 4.5/5

My Skinwise ranking

#1 — Solasafe ACE Liquid

Best overall addition for **oily/acne-prone customers**

#2 — Solasafe Silicone Gel

Best for customers specifically wanting a **silicone/matte gel**

#3 — Solasafe Tinted Ivory

Best as a **tinted sunscreen option**, rather than as your main everyday sunscreen.

Important for your Skinwise catalogue

I would **not list all three simply as “Solasafe SPF 50+.”** That makes it difficult for customers to choose.

Instead, your website filters should show:

•

Product	Best positioning
IPCA Acne-UV Gold SPF 50 PA++++	🏆 Oily + Acne-Prone + PA++++
La Roche-Posay UVMune 400 Oil Control	Oil control + very high UVA
Cetaphil Sun Light Gel SPF50+	Sensitive + oily/combination
Solasafe ACE Liquid	Oily/acne-prone + lightweight fluid
Solasafe Silicone Gel	Oily/combination + silicone/matte
Bioderma XDefense Tinted	Tinted + pigmentation/visible-light focus
Bioderma Photoderm Crème	Normal-to-dry + sensitive
Dot & Key Blueberry Barrier Repair	Hydration + barrier support

•

HOW TO SELECT THE BEST SUNSCREEN FOR MY OILY SKIN?

Answer these 2 simple questions:

1 What is your skin type?

-  Oily / Acne-prone
-  Combination
-  Sensitive
-  Normal

2 What is your main requirement?

Your priority

 Choose

I have oily + acne-prone skin

 IPCA Acne-UV Gold

I want maximum oil control / matte finish

★ La Roche-Posay UVMune 400 Oil Control

I have sensitive + oily/combination skin

★ Cetaphil Sun Light Gel

I want a lightweight sunscreen for oily/acne-prone skin

★ Solasafe ACE Liquid

I like a smooth silicone/matte sunscreen

★ Solasafe Silicone Gel

SKINWISE QUICK SELECT

 I have OILY + ACNE-PRONE skin

→ IPCA Acne-UV Gold SPF 50 PA++++

Best overall match when acne-prone skin + high UVA rating (**PA++++**) are priorities.

 I have VERY OILY skin & want MATTE/OIL CONTROL

→ **La Roche-Posay UVMune 400 Oil Control SPF50+**

Choose this when **oil control and very high UVA protection** are the main priorities.

 I have SENSITIVE + OILY/COMBINATION skin

→ **Cetaphil Sun Light Gel SPF50+**

A good choice when **sensitive skin + lightweight sunscreen** are more important than maximum matte oil control.

 I want a LIGHTWEIGHT sunscreen for OILY/ACNE-PRONE skin

→ **Solasafe ACE Liquid SPF50+**

Good choice if you want a **light fluid + skincare-oriented formula**.

 I prefer a SILKY/MATTE silicone sunscreen

→ **Solasafe Silicone Gel SPF50+**

Choose this if your priority is **smooth silicone texture + matte feel**.

 **EVEN SIMPLER — FOR SKINWISE WEBSITE**

I recommend putting this directly above the sunscreen products:

“Which Sunscreen Is Best For Me?”

- ☐ **Oily + Acne-Prone**
→ **IPCA Acne-UV Gold**
- ☐ **Very Oily + Want Matte/Oil Control**
→ **La Roche-Posay UVMune 400 Oil Control**
- ☐ **Sensitive + Oily/Combination**
→ **Cetaphil Sun Light Gel**
- ☐ **Oily/Acne-Prone + Want Lightweight Fluid**
→ **Solasafe ACE Liquid**
- ☐ **Combination/Oily + Want Silky Matte Finish**
→ **Solasafe Silicone Gel**

★ Skinwise recommendation

Not sure which one is right for you?

Tell us your skin type + your main skin concern, and Skinwise will help you choose.

This is actually a **very strong feature for Skinwise**, because you're selling **curated skincare** rather than simply listing 20–30 sunscreens
