

SOLASAFE SPF 50+ SILICONE SUNSCREEN GEL

Positioning: Silicone-based sunscreen gel for a smooth, non-greasy, matte-type finish.

SKINWISE QUICK TAGS

SPF 50+ • PA+++ • Silicone Gel • Matte Finish • UVA + UVB • Antioxidant

★ WHY SKINWISE SELECTED IT

A classic **silicone-gel sunscreen** with a combination of modern organic filters and zinc oxide. Its main attraction is the **silky, smooth gel texture** and relatively low-oily skin feel.

BEST FOR

- Oily skin
- Combination skin
- Normal-to-oily skin
- People who prefer a silicone/matte sunscreen
- Daily outdoor use

⚠ MAY NOT BE THE FIRST CHOICE FOR

- Very dry skin
- Very sensitive or fragrance-reactive skin
- People who dislike silicone-gel textures

☀ SUN PROTECTION

SPF 50+ / PA+++ with multiple UV filters, including:

- Zinc Oxide
- Tinosorb S — Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine
- Diethylhexyl Butamido Triazone

The available ingredient listings also show titanium dioxide in some published formulations.

KEY INGREDIENTS

Zinc Oxide – mineral UV filter

Tinosorb S – broad-spectrum organic UV filter

Diethylhexyl Butamido Triazone – UVB filter

Vitamin E acetate – antioxidant support

Silicones – smooth, silky skin feel

TEXTURE & FINISH

Silicone gel → **smooth** → **silky** → **relatively matte**

Good choice if the customer specifically says:

“I don’t like creamy sunscreens. I want a gel that feels smooth.”

SKINWISE SUITABILITY

Skin Type	Suitability
Oily	★★★★★
Combination	★★★★★
Normal	★★★★
Normal-to-Dry	★★★
Dry	★★
Sensitive	★★★
Acne-prone	★★★★

PROS

- High SPF protection
- Silicone-gel texture
- Smooth application
- Good option for oily/combination skin

- Contains zinc oxide + modern UV filters
- Antioxidant support

THINGS TO KNOW

- Contains **fragrance/perfume** in the listed formulation.
- Not my first choice for very dry or barrier-compromised skin.
- PA+++ is good, but some of your catalogue products offer **PA++++**.

DERMATOLOGIST'S PICK

A good practical gel sunscreen for oily/combination skin, particularly for customers who prefer a silicone-based finish.
