

SOLASAFE TINTED IVORY SUNSCREEN SPF 50

Positioning: Tinted sunscreen providing UV protection + light cosmetic coverage.

SKINWISE QUICK TAGS

SPF 50 • PA+++ • Tinted • Ivory • Tone-Evening • Daily Sunscreen

The currently listed product is **40 g** and is marketed as suitable for all skin types.

★ WHY SKINWISE SELECTED IT

The key advantage isn't simply SPF — it is the **tint**.

For Skinwise, this gives you a separate category for customers who want:

Sun protection + slight complexion correction/coverage.

BEST FOR

- Normal skin
- Combination skin
- Mildly oily skin
- Customers who prefer **tinted sunscreen**
- Customers wanting to reduce the appearance of uneven complexion

MAY NOT BE THE FIRST CHOICE FOR

- Very oily skin if they want a strong matte/oil-control sunscreen
- Very dry skin without moisturizer underneath
- Customers needing a very specific match to their skin tone

SUN PROTECTION

SPF 50 / PA+++

Available product information describes broad-spectrum UVA/UVB protection.

KEY INGREDIENTS

Published ingredient information includes:

- Titanium Dioxide
- Zinc Oxide
- UV filters
- Silicone-based ingredients

One published ingredient listing includes **ethylhexyl methoxycinnamate and diethylamino hydroxybenzoyl hexyl benzoate** along with titanium dioxide.

TEXTURE & FINISH

Lightweight tinted silicone texture → blends into skin → cosmetic/complexion-evening finish

SKINWISE SUITABILITY

Skin Type	Suitability
Oily	★★★★
Combination	★★★★★
Normal	★★★★★
Normal-to-Dry	★★★★
Dry	★★★
Sensitive	★★★
Acne-prone	★★★★

PROS

- Tinted

- SPF 50
- Lightweight
- Provides some cosmetic coverage
- Can simplify routine for customers who don't want foundation
- Useful addition to Skinwise's **tinted sunscreen** category

THINGS TO KNOW

- **PA+++**, rather than PA++++.
- Ivory shade may not suit every Indian skin tone.
- Tint should not be confused with a dedicated treatment for pigmentation.
- For significant melasma/hyperpigmentation, I'd give preference to a **well-formulated tinted sunscreen with documented visible-light protection**, rather than relying on tint alone.

DERMATOLOGIST'S PICK

Good option when the customer's priority is sunscreen + light complexion coverage.

★ SKINWISE VERDICT

4.2 / 5

Skinwise Category:

● Tinted • Complexion-evening • Normal/Combination
